Demonstrate Network Forensics using PCAP X-RAY.

Aim:
=
To perform network forensis by analyzing packet capture (PCAP) file using PCAP X-RAY tool to identify network security indicators.

procedure:
=
*) obtain a PCAP file & open PCAP X-Ray tool.

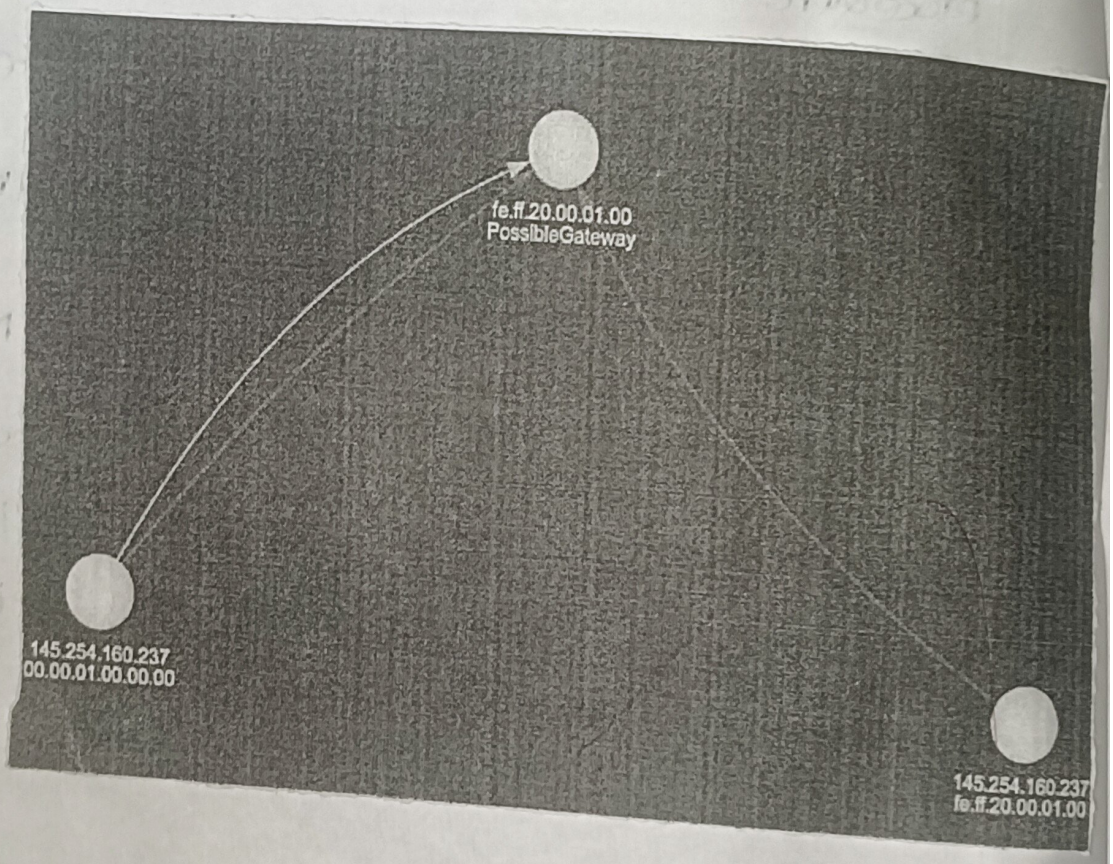

*) upload the PCAP file

*) view the dashboard after processing the dashboard.

*) Analyze protocol distribution & destination hosts.

*) check for credentials & extract files.

Result:
=
successfully analyzed the PCAP file and extracted security indicators.
